

Delivers yield and quality for both cutting and grazing.

Flexicrop delivers yield and quality for both cutting and grazing. The hybrid element provides quality leafy grass at cutting and combines with the persistency and density of the perennials for all round performance.

Ratings

- Lofa has excellent stress tolerance combined with yield and forage quality
- Will cut or graze equally well producing high annual yields
- Sward density is excellent so withstands heavy traffic
- DLF FIBER ENERGY™ varieties bring superb digestibility levels
- Dual purpose White Clover performs well under both regimes
- A No Clover option is available
