

A versatile mixture to cut or graze for 5 years plus.

A versatile mixture to cut or graze. This ley will withstand heavy grazing by all classes of stock particularly beef cattle and sheep. For ensiling it will produce good yields and quality.

- Good spring time production for grazing animals
- Timothy tolerates cold wet soils
- Capable of producing a quality cut of silage
- 48% late perennial ensures a leafy sward palatable
- A No Clover option is available
