

Perennial ryegrass

Sports or ornamental? Answer: Both!

- Excellent rust resistance
- A sport variety in the skin of an ornamental!
- Confirmed STRI & French list
- A clean cut that you can't see!

Ratings

Combining high visual merit with super wear tolerance.

CHARDIN is ranked as one of the best varieties of perennial ryegrass in simulated sport management in the STRI trials (UK).

Clean cut

We are light years from desiccated leaf tips of varieties that were popular years ago! CHARDIN will fit into even the highest prestige ornamental lawns as well as premier league sport pitches.

Confirmed results

The very high wear tolerance, fineness, outstanding winter visual merit and also summer performance are confirmed in official French tests.

Rusts won't disturb the high level visual merit

CHARDIN has excellent rust tolerance on the French list!

Turfgrass Seed 2024
Lawns, Landscaping, Summer Sports and Turf Trials (Mown at 10-15mm)

Cultivar	Shoot Density	Fineness of Leaf	Slow Regrowth	Visual Merit	Mean	Resistance to Red Thread	Cleanness of Cut
