

Best new variety available

- High yields
- Yellow root with 17-18% dry matter
- Most of the root above ground
- Smooth, clean roots
- Easily lifted on all soil types

Ratings

Cleanness of root	<div style="display: flex; justify-content: space-between; width: 100%;"><div style="width: 100%; height: 10px; background-color: green;"></div><div style="width: 10%; height: 10px; background-color: white;"></div></div>
Root in ground	<div style="display: flex; justify-content: space-between; width: 100%;"><div style="width: 30%; height: 10px; background-color: green;"></div><div style="width: 70%; height: 10px; background-color: white;"></div></div>
Grazing suitability	<div style="display: flex; justify-content: space-between; width: 100%;"><div style="width: 50%; height: 10px; background-color: green;"></div><div style="width: 50%; height: 10px; background-color: white;"></div></div>
Lifting suitability	<div style="display: flex; justify-content: space-between; width: 100%;"><div style="width: 100%; height: 10px; background-color: green;"></div></div>

Bangor is an improvement on the illustrious/long-time-acknowledged varieties Kyros and Troya – resulting in a yield increase and uniform roots.

Bangor is easily lifted on all soil types, due to the regular shape of the root and its high position above the ground.

With a medium DM in the root it results in a very high yield of 105%
