Red thread tolerance

Salt tolerance

Close mowing tolerance

Short Growth is Always the Key Factor

All professionals as well as private gardeners are looking for short growing and dense growing lawns. Using SMIRNA you are well on the way to achieving this ideal situation.

Tolerance to Close Mowing

Being mowed down to 5-6 mm on golf greens and still be able to withstand hard wear is a tough job for the grass. SMIRNA can cope with this and still give the glossy appearance you are looking for.

Improved Tolerance to Drought and Salt

Is one of the main characteristics for the slender creeping red fescues. SMIRNA has clearly demonstrated that this nature given advantage is kept alongside with the improved qualities in the variety and ad the nice dark green colour during summer.
