<b>Rust tolerance</b>	
<b>Colour</b>	
<b>Red thread tolerance</b>	
<b>Salt tolerance</b>	

**Slow regrowth**

Yvette has a very slow regrowth enabling a nice appearance for longer time and reduced maintenance.

**Very good resistance to red thread disease**

Yvette show very good tolerance to red thread disease. Red thread is particularly present when nitrogen supply is low.

**Fine leaves and good summer appearance**

Yvette is amongst the most fine leaved *Poa pratensis* varieties and can advantageously be part of most mixtures for prestigious lawns. Yvette has better summer appearance than most other *Poa pratensis*.
