

Overseeding Mixture

GrassMax™ overseeding mixtures have been designed to meet the precise requirements of the field and its intended use. It is important to remove all surplus growth from the existing sward before overseeding.

VARIETIES WITH HIGH FIBRE DIGESTIBILITY (DNDF)

Twymax

Seed Rate: 10kg/acre or 25kg/ha Pack Size: 20kg

All standard GrassMax™ mixtures are available without clover. The 10kg/acre seed rate is maintained by substituting the clover with additional grass.
