

Intensive grazing mixture

## The ultimate cattle grazing mixture

- High tillering varieties selected for a dense, leafy sward that cattle will graze out very bare
- Formulated to even out grass production for the whole grazing year
- Palatable, high sugar varieties with excellent sward density and with good levels of DNDf
- A high inclusion of HF Grazing White Clover blend and no Timothy leads to improved animal performance

Recommended sowing rate: 13-15 kg/acre 32-35 kg/Ha
